

TIG Torch - Air Cooled - WP 9 V - 25 - 2

Advantageous

- Equipped with a gas valve for precise control and adaptability across various welding currents.
- Constructed with a full copper torch body, ensuring superior thermal efficiency and durability under demanding welding conditions.
- Silicone rubber torch body offers exceptional insulation and protection against high-frequency failures.
- Ergonomically designed nylon ribbed handle minimizes fatigue during prolonged use.
- Features a highly flexible welding cable with excellent insulation for enhanced safety and maneuverability
- Includes welding accessories that meet international standards for reliability and compatibility.

Specifications

Type of Cooling	Air
Gas Flow	5 - 12 l/min
Duty Cycle 60 % DC	125 A
Duty Cycle 60 % AC	100 A
Tungsten Electrode Ø	1.6 - 2.4 mm
